Delivery Information

We are so grateful for your generosity and willingness to donate these items, your support truly makes a difference to the people we work with.

Where possible, we kindly ask that donations are delivered directly to us, as we have limited staff and volunteer capacity to organise regular collection pickups. Our van and cargo bike are prioritised for essential Foodbank operations, including collecting food donations and transporting supplies to and from sessions. We also need to be mindful that we are not funded for additional costs such as fuel, electricity, and congestion charges.

If you would like us to pick up any donations, please do get in touch in advance to check availability.

Thank you again for your understanding and for supporting Pecan in such a practical and meaningful way.
